Experience

Test Automation Engineer

AdvantISS

Aug 2022 - Present (1 year 8 months)

As a Test Automation Engineer, I specialize in C# and TypeScript to create automated test scripts using Playwright and Selenium libraries. My strengths include building customized test frameworks tailored to project needs. I've worked on diverse projects, gaining adaptability and in-depth knowledge of software development processes. Additionally, I've mentored junior team members, sharing knowledge and ensuring high-quality results. I excel in essential tasks such as test case design and execution, contributing to project success through technical expertise and attention to detail.

Test Automation Engineer

PasynSoft LLC

Feb 2020 - Aug 2022 (2 years 7 months)

Extensive experience on web application projects, I bring a strong technical knowledge to the table. My proficiency in using C# and TypeScript for writing automated tests has allowed me to effectively test and validate software functionality. Additionally, my experience with Selenium and the Playwright library has equipped me with the tools and skills necessary to create comprehensive test suites and ensure the highest level of software quality. In addition to my strong skills in C# and TypeScript, I am also well-versed in a range of other technologies, including JavaScript, NodeJS, SQL, Git, and Azure DevOps. These technical proficiencies have allowed me to effectively design, develop, and execute automated tests for web applications, and have equipped me with the ability to integrate my tests into a larger development workflow.

Quality Assurance Engineer

Jun 2019 - Aug 2021 (2 years 3 months)

As a QA Engineer on the IPTV project for mobile platforms iOS and Android, I have honed my skills in quality assurance and testing. I have created test cases and other testing artifacts, and have been responsible for testing both the frontend and backend of the application. Additionally, I have taken steps to improve the efficiency of our testing processes by starting to develop automated tests for the

API using C#. My experience in this role has also allowed me to share my knowledge and mentor newcomers in the team, contributing to the growth and success of the company.

Education

Sumy State University

Master's degree, Material science
2016 - 2018

Sumy State University

Bachelor's degree, Material science
2012 - 2016

Licenses & Certifications

Certified Tester, Foundation Level - ISTQB® - International Software Testing
Qualifications Board
20-CTFL-181825-12

JavaScript Starter - TestProvider
TP64118432

Git basis - TestProvider
TP25340100

Skills

C# • TypeScript • Selenium • Playwriting • SQL • Git • Docker Products • Azure DevOps Server
• TeamCity • Application Programming Interfaces (API)
